

THE LINK

Distribution Scout 2022

The Link is looking for a distribution scout to update its distribution locations. We also want to add some location points. Our objective is to have a total of 100 willing distribution points, apart those located on the Concordia campuses.

Tasks: Update current list (phone calls), find new distribution locations (phone calls and in-person). Fill an Excel sheet with all distribution points that have been contacted (name, address, phone number contact person, comment: current distribution point still interested or not (reason), new distribution point: contact information, interested or not with reason).

This is a contract of \$1000. The task should not take more than 50 hours of work. Organize your time as you wish! The deadline to give a report is July 31, 2022.

We'll provide an extra \$7 for each new location that will sign an agreement of distribution with *The Link*.

Send your letter of intent to secretary@thelinknewspaper.ca
